WELCOME FROM OUR PRESIDENT

Welcome to the 30th Annual Conference in Rome in cooperation with the BIM Congress 2026 and Assobeton, the Italian precast association:

Once in a lifetime opportunity

Private visiting Vatican Museum and 16th chapel

IPHA-Dinner in fantastic Casina Valadier

Finally, IPHA & Generale Prefabbricati wish to welcome you to IPHA Annual Conference in Rome, Italy!

Dear Members,

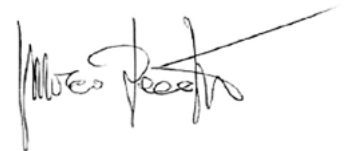

I'm delighted to finally welcome you to our 30th annual Conference. This occasion is not only special for its important anniversary, which means a lot for those of us who have belonged to IPHA since its establishment; on a personal note, I'm thrilled to be hosting you in my home country.

The theme of this year's Conference held in conjunction with BIM is of such importance, we decided to give our contribution to discuss and learn about what the situation for sustainable precast really is. In our goal of transitioning to environmentally friendly precast solutions, smart design can be an integral factor whether it is reusing components or focusing on technology to ensure durability.

We have all been involved and committed to improving our products and practices for many years, and this kind of event allows us to keep up to date with the latest innovations and inspires us to keep evolving with the changing times and markets.

Rome wasn't built in a day and neither was IPHA. 30 years of promoting, supporting and sharing a worldwide vision should be celebrated. For this reason we have set up a special event to remember: you will have the occasion to visit the Vatican Museums privately and enjoy our time together in an outstanding venue with a spectacular view of the "Eternal City".

I look forward to seeing you soon and writing another chapter of our story together.

IPHA President
